Meeting Agenda

- Review History of Healthcare Committee
- Discuss potential areas of growth in 2022
- Decide Next Steps

Items Discussed

- Steve Jureller identified the four pillars of a successful networking organizations:
 - **Educational information**
 - **Support/Influence over Legislation**
 - **Camaraderie**
 - **New Business Generation**
- The Healthcare Committee has met regularly since the inception of NYCBB+.
- Although there is a great need for events and collaboration, programming has been difficult during the pandemic.

- The group identified additional organizations and events as inspiration for the future of the NYCBB+ Healthcare Committee:
 - o HCF supplies informational and interesting events
 - o AMPF has grown quickly and offered helpful resources to its members
 - o New York Hospital Engineering Society offers cocktail receptions where members can speak with engineers, who are on the ground and in touch with the state of Engineering in New York real estate
- There is a great sense of urgency in 2022. The original benefit of NYCBB+ was to be the first in on the life science real estate community. As that community grows larger, it is essential that the Healthcare Committee expands its reach and provides relevant opportunities to the Membership.
- Diversity is another top priority for the committee. The group will work to expand the range of people who join. It is essential to have a well-rounded group of people in Technology, Medicine, Business, and Real Estate.

Action Items and Next Steps

1. Potential Deliverables for Q1:

- a. **Expanded outreach to the healthcare community**
- b. **Whitepaper**
- c. **Cocktail reception for the Healthcare Committee and guests**

- Discuss prospective members
- Discuss prospective speakers
- Plan Next Steps

Items Discussed

- The group emphasized three key points:
 - Committee to invite speaker to next meeting
 - Speaker should bridge the divide between technology and proactive planning/development of health systems
 - In-person meetings would also boost attendance and enthusiasm
- Speaker focus areas:
 - Proactive health system planning (i.e. Northwell Health Chief Development Officer)
 - Proactive technological planning (i.e. Regeneron Head of Technology)
 - Predictive technology that will anticipate future pandemics and other healthcare events that will shake the industry (i.e. AI Specialist)
- Planned April Speaker meeting
- Target May in-person meeting

Action Items and Next Steps

1. Joe Bolano to invite healthcare speaker to next meeting
2. Kate McDonough to reach out to the wider committee and confirm attendance.
